BALLISTIC BRIEFCASE

Ballistic briefcase against bullets

The Force Ware Ballistic Briefcase is a highly discreet protection device. It is ideal for use by VIP close protection officers. The design of the briefcase allows single handed and rapid deployment when required to provide a sizeable first line of effective ballistic and fragmentation protection.

The outer cover of the three-part briefcase is designed from heavy duty nylon (imitation leather possible as option). It unfolds quickly to provide protection at a standard level of NIJ IIIA. The size of the ballistic briefcase can be tailored to suit various customers' requirements.

The Force Ware ballistic briefcase is low profile, lightweight and compact making it easy to stow in vehicles or to carry with you during escort duties.

- ✓ **Rapid deployment close protection device**
- ✓ **Discreet appearance**
- ✓ **Low profile, lightweight and compact**
