

Demining Apron Aquila

Art.-No.: 1020006

FEATURES

- Protection level $v_{50} = 450$ m/s according to STANAG 2920
- Very light, convenient to wear
- Extended tailored protection over the deminer's frontal thighs while still being comfortable to walk and kneel in
- Hygienic, washable outer cover
- Suitable for operations in tropical areas
- Three sizes S, M, L
- Detachable pouch for tools and accessories
- Colours UN blue and Navy blue

DESCRIPTION

An easy-removable washable and wipe-clean Cordura® outer fabric covers the inner core consisting of multi layer Kevlar® fabric. The apron is held on the body by heavy-duty webbing and quick release clips (no Velcro® is used).

The inner core is layered and stitched in a manner that allows the armour to be extremely soft and pliable, maximizing user comfort.

The collar and groin flanges are attached to the main ballistic core using an interleaved stitching method to ensure that the likelihood of separation during a blast is minimised.

PERFORMANCE

The Aquila is the latest addition to our range of Soft Personal Protective Equipment.

Various field trials have shown that it provides:

- Protection against the blast of AP mines
- Light and cool to wear in hot climates
- Quick to put on and easy to adjust
- Causes minimum restriction to movement and vision
- Durable and easy to maintain

TECHNICAL DATA

- Protection level $v_{50} = 450$ m/s according to STANAG 2920
- Standard colours NAVY blue, UN blue and orange (customized colours possible at a minimum order of 500 pcs.)
- Weight app. 3,8 kg
