

Pocket Blaster

Art.-No.: 1100055

The Pocket Blaster (type Austin Powder EBM 05) is a very handy electric blasting machine that works with a standard 9 V battery. It initiates up to 30 detonators Class I (4 mJ) or 20 detonators Class II (16 mJ). The fitting testing unit (type PG01) is included.

Technical Data

- Dimensions (L x W x H) 160 x 82 x 42 mm
- Weight (incl. battery) ca. 350 g
- Ignition energy max. 13,75 Joule
- Capacitors 2 x 220 μ F
- Ignition voltage 225 – 250 V
- Charging time capacitors ca. 18 s (with new battery)
- Operable temperature range -15 bis +50 °C
- Recommended battery 9 V long life alkaline battery
- Certification: CE, BAM-ZM-456

Approved numbers and types of detonators (series connection)

- Detonator 4 mJ: 30 pcs., net resistance limit 160 Ω
- Detonator 16 mJ: 20 pcs., net resistance limit 90 Ω
- Detonator 2500 mJ: 4 pcs., net resistance limit 3 Ω
