

Ballistic Shield on Trolley Level IV

Article No.: 1100302

The level IV ballistic shield is a mobile high protection shield which provides multi strike protection from armour piercing rounds, and all lesser ballistic threats. The shield is flat and is constructed from alumina oxide ceramic tiles mounted on a rigid matrix aramid backing. The trolley provides a stable and highly manouverable platform capable of smooth cornering, and rough terrain movement. The included PRO LIGHT Shield Lighting System allows you to operate even in dark environment.
